

Headings

To make text into a heading, insert a single hash before the heading text and insert a blank line before the following paragraph.

```
# Heading
```

```
Lorem ipsum dolor sit amet, consectetur  
adipiscing elit.
```

To add additional headings, insert another hash for each subsequent heading level:

```
## Subheading  
### Sub-subheading
```

Bold

Insert double asterisks on either side of the text to be styled:

```
Lorem ipsum dolor sit amet.
```

Italics

Insert a single asterisk on either side of the text to be styled:

```
Lorem ipsum dolor sit amet.
```

Blockquotes

Insert a less than sign at the start of the quoted paragraph:

```
> Lorem ipsum dolor sit amet, consectetur  
adipiscing elit.
```

Links

To add a link, insert the URL in parentheses after the text to be linked.

```
Lorem [Google](http://www.google.com) ipsum  
dolor sit amet.
```

Bulleted lists

To make a bulleted list, insert an asterisk before each line in the list:

```
* List Item  
* List Item  
* List Item
```

Numbered lists

To make a numbered list, insert a number with a period before each line in the list:

```
1. List Item  
2. List Item  
3. List Item
```

Figures

To add a figure (image), insert the figure “shortcode” on its own line where the figure should appear.

```
Lorem ipsum dolor sit amet, consectetur  
adipisicing elit.
```

```
[figure 1]
```

```
Lorem ipsum dolor sit amet, consectetur  
adipisicing elit.
```

This will display the first image from the Figures field in Directus.

Footnotes

To add a footnote, insert the footnote “shortcode” inline where the footnote reference should appear:

```
Lorem ipsum dolor sit amet, consectetur[fn  
1] adipisicing elit.
```

This will display a reference to the first footnote from the Footnotes field in Directus.
